Adam Abdelaziz

adam.a.abdelaziz@gmail.com | (347) 984-9258 | New York, NY | adamabdelaziz.github.io

SKILLS

- **Programming Languages**: Kotlin, Java
- **Mobile Development**: Jetpack Compose, Kotlin Multiplatform
- **Architecture**: MVVM, MVI, Dagger Hilt, Koin, Flows, Coroutines
- **Data & APIs**: GraphQL, Ktor, Apollo, Retrofit, Room, Datastore, SQL
- **Testing & Tools**: Git, Android Studio, Gradle, GitHub Actions, Unit Testing, LeakCanary

WORK EXPERIENCE

Rapptr Labs   **Oct. 2021 – Aug. 2024**
Android Engineer   *New York, NY*

- Architected a scalable Android app using MVVM and Jetpack Compose that enabled rapid feature development and met all design specifications
- Led migration from Java/XML to Kotlin and Jetpack Compose, reducing boilerplate code and accelerating feature delivery
- Integrated Apollo GraphQL client for type-safe API communication and local data caching
- Translated Figma designs into pixel-perfect Compose UIs optimized for multiple screen sizes
- Collaborated with QA and backend teams to resolve API integration issues and deliver features on schedule
- Established clean architecture patterns and mentored junior developers through code reviews and team discussions

Rally Education   **Jul. 2016 – Oct. 2021**
Web Developer   *Glen Head, NY*

- Maintained and enhanced PHP/JavaScript web applications for eCommerce and internal business tools
- Built automation tools that eliminated repetitive manual tasks, improving team efficiency
- Customized CRM workflows and user interfaces to meet specific business requirements

EDUCATION

Stony Brook University   **June, 2014**
B.S, Computer Science   *Stony Brook, NY*
